

NEW AWARDS NOMINATION PROCESS

The awards committee has developed a new nomination process. This year all nomination letters will be sent to the MWCA office by **November 19, 2010**. The MWCA office will compile packets to be sent to the awards nominations work group to vote on the nominees. This work group will be comprised of the annual conference planning committee, the awards sub work group, the area representatives and any other *member* of the MWCA who wishes to be a part of the process. The work group will have two weeks to review their packets and submit their ballots back to the MWCA office for a final tally. The MWCA office and the awards chair person will secure awards for the nominees who receive the most votes. The awards will then be given at the annual conference.

If you wish to join this work group and participate in the nomination process, please contact Becky. Please don't forget that we have nine awards categories and we hope as you work through this weed season, that you nominate those great weed warriors out there.
